

## LOCALS

Easter Sunday tomorrow.

Several country teachers are in town enjoying Easter vacation.

Don't forget to attend the meeting of the Maui Racing Association at the Court House tonight.

Mr. Helmick, former foreman of the News, is slowly improving, but is still confined to his room.

Johnny Kerr is seen quite often on the street behind his fast pacer. Guess he is shaping him up for the July races.

Superintendent Filler of the Kahului R. R. Co. and wife have come to Wailuku to stop for awhile as guests at Shrader's New Hotel.

A new job printer has developed spontaneously in the News office, and arrears of job work are being rapidly turned out. Send along your orders.

Messrs. Kinder and Beach will locate in Wailuku for some months as plumbers and pipe-fitters. This will prove quite a convenience to Wailuku householders.

We notice a number of life insurance men around town, but as they have not "seen" the News, we shall make no mention of the fact of their presence in our midst.

Mrs. H. P. Baldwin will leave for the coast shortly to place her two children, Sam and Lottie, in school. She will probably remain till July and return with her son Frank and his bride.

W. C. Scott, the head luma of the Spreckelsville Plantation, has had to resign his position on account of the serious injuries which his eyes suffered, while fighting cane fires at Spreckelsville recently.

**MEETING NOTICE.**—A meeting of the Maui Racing Association will be held at Wailuku Court House on Saturday, April 14th, at 7:30 o'clock, P. M. All members are urgently requested to attend.

GEORGE HONS, Secretary Maui Racing Association.

**NOTICE.**—The steamer Centennial will take passengers from Kahului to the Coast at reasonable rates. She will sail about the 17th. For further particulars, apply to, THE KAHULUI RAILROAD OFFICE, KAHULUI, MAUI, H. I.

Dan Quill called at the NEWS office the other day and reported a serious case of "plague" at Kahului.

Waiting patiently till the reporter's pencil was sharpened, he gravely assured the reporter that he himself was the unfortunate victim, who had been "plagued." His remains can be found back of Hoffman & Vettesen's stable by enquiring friends.

J. R. Higby, who had the road contract at Keanae has about finished his contract. He has made about six miles of eight foot road, for foot and horseback travel. The work done commences at Keanae and extends three miles toward Nāhiku, and also commencing at Nāhiku extends three miles toward Keanae, leaving some three miles between the two places unbuilt.

Moses Waiwaiale, son of Attorney Waiwaiale of Wailuku, has become an entered apprentice in the mechanical department of the MAUI NEWS, and by his adaptability for the work, promises to become an honor to the craft. It is the policy of the News to man its office entirely with young Hawaiians, and the experiment so far has proved quite successful.

Superintendent Taylor is making very satisfactory progress in laying pipe for the Wailuku waterworks. Pipe has been laid along Market, Main and High streets and almost from town to the reservoir. The Superintendent of Public Works at Honolulu woke up long enough this week to send over a tardy but most welcome remittance on Thursday, and the work will now be rapidly pushed to completion.

Chief Engineer Petersen of the Kaunakakai Plantation, Molokai, is visiting Maui this week. He reports that the water being pumped for the plantation is becoming more brackish all the time. One large pump which was furnishing water for about one thousand acres of fine, young, growing cane some three feet high, last week pumped nearly pure sea water, and the pump was shut down, leaving the cane without water. Smaller pumps are to be tried at frequent intervals, each throwing a small stream into one main aqueduct from which it will be handled by a larger pump.

## LAHAINA LOCALS.

Judge Kalua, Judge Kaleikau and Attorney George Hons, attended Court at Lahaina on Tuesday, Wednesday and Thursday.

J. J. Conbs, the energetic and irrepressible Wailuku merchant came over to Lahaina on Tuesday of this week and established a branch store with headquarters in the rear of John Rierson's law office.

Several Kona (Hawaii) boys came back to school last week, having been kept away since Christmas vacation by the plague quarantine. Several others on Hawaii will not return till next term, on account of being behind with this term's work.

On April 5, two wood turning, power lathes were received by the Lahainaluna School. These are excellent machines, simply and thoroughly built, and well adapted to school work. They will be run by water power. Special attention is now being given to various kinds of manual work at the Lahainaluna School.

A test case was brought by a Japanese against the Olowalu plantation, to cancel his contract on the ground that its terms had been violated by the plantation, by withholding his pay for two weeks after the end of the month. An appeal was taken by the plantation from this decision, to the Circuit Court, and the appeal will be heard at Lahaina this afternoon.

Sheriff Baldwin returned to Wailuku from Lahaina on Wednesday night, leaving everything quiet here. The Kaunapali Japanese have returned to work, but the Lahaina contingent are still out. They have formulated sixteen different complaints, and it is a poor day when they do not formulate another. Most of these are both ridiculous and untenable. The Lahaina Plantation seems to be willing to meet the Japanese half way in all reasonable complaints, but of course cannot concede to the many absurd claims of the Japs. A few days since, the Lahaina Japanese ordered the representative of the Honolulu Japanese Consul to leave their camp. The Lahaina Japanese are still on a strike and the Pioneer mill is idle.

## British Convey Captured. Seven guns lost. Cronje off to St. Helena. The Queen in Dublin.

LONDON, April 2.—The War Office has received the following dispatch from Lord Roberts dated Bloemfontein, April 1st:

"I received news late yesterday evening from Colonel Broadwood, who was at Tlabane, thirty-eight miles east of here, that information had reached him that the enemy was approaching in two forces from the north and the east. He stated that if the report proved true he would retire toward the water works, seventeen miles nearer Bloemfontein where we have had a detachment of mounted infantry for the protection of the works.

"Broadwood was told in reply that the Ninth Division with Martyn's mounted infantry will march at daylight to-day to support him, and that if he considers it necessary he should retire from the water works. He moved there during the night and bivouacked. At dawn to-day he was shelled by the enemy, who attacked on three sides. He immediately dispatched two horse artillery batteries and his baggage toward Bloemfontein covering some of them with his cavalry.

"Some two miles from the water works the road crosses a deep nullah or spruit, in which during the night a force of Boers had concealed themselves. So well were they hidden that our leading scouts passed over the drift without discovering them, and it was not until the wagons and guns were entering the drift that the Boers showed themselves and opened fire. Many of the drivers of the artillery horses were immediately shot down at short range and several of the guns were captured. The remainder galloped away, covered by Roberts' Horse, which suffered heavily.

Meanwhile Lieutenant Chesternaster of Rivington's Scouts found a passage across the spruit unoccupied by the enemy, by which the remainder of Broadwood's force crossed.

They reformed with steadiness, notwithstanding all that had previously occurred.

"Broadwood's report, which has just reached me and which contains no details, stated that he had lost seven guns and all his baggage. He estimates all his casualties at about 350, including 200 missing.

LONDON, April 4.—6:40 A. M.—No news has yet been received of the expected battle between General French and the Boers. There is now but a remote prospect of the recapture of the guns. This, however, is regarded as quite trifling compared with the political effect of the disaster. As the Bloemfontein correspondent of the Times remarks, Commandant Olivier's strategy in recouping Ladybrand and Tlabane was bold and even brilliant. Most of his force is composed of Free Staters and the advantage gained by them will have a most disturbing effect on the mind of the Free State population.

The impossibility of effecting complete protection for the moment to all farmers in the south and south-east sections of the Free State is recognized at Bloemfontein. Men who surrendered under the proclamation of Lord Roberts are now being punished for the reliance they placed in the ability of the British to protect them. As the correspondent further remarks, "this is a hard fate and every possible effort will be made to help them, but consideration for the sufferings of repentant belligerents at the hands of their fellow countrymen cannot be suffered to prejudice the military plans of Lord Roberts."

The Daily Telegraph, which takes a more humane view, says: It is just as important to protect those burghers who have trusted in our power and surrendered all means of defending themselves as it is to win victories against those who are still in arms. The Daily Chronicle whose Cape Town correspondent joyfully predicted that the war would be over in three months, says: In order to re-establish our position in the Free State we need a brilliant success won on the scene of our latest reverse.

It is announced from Springfontein that the censorship has again curtailed the dispatches. Therefore important developments must be impending. There is little news from other

points. Mafeking was still besieged on March 29th, and there are rumors that General Buller is preparing to advance.

LONDON, April 4.—The correspondent of the Times at Lourenço Marques, telegraphing Tuesday, says: It is reported here that all the Rand mines closed down. British workmen and their countrymen in other parts of the republic are being expelled wholesale from the Transvaal. On the other hand, the Boers are so demoralized that it is impossible to induce many now on furlough to return to the front.

BERLIN, April 2.—The serious condition of affairs in the German Cameroons continues to engage attention here. It is said that the revolt already extends along the entire length of the Mungo river. Everywhere the villages are deserted and the planters find it impossible to get workers.

BERLIN, April 2.—The Kölnische Zeitung a semi-official organ, publishes alarming reports regarding the war preparations which Russia is making on land and sea. The Zeitung announces that the Czar will go to Moscow tomorrow, to be present at a military council.

All dispatches relating to the mobilization of troops are carefully censored before they are given to the press. Officers who have applied for leave of absence have been notified that all such leaves will be denied for the present.

The statements that Russia is intriguing against the Bagdad Railroad are branded in Government circles as a British invention.

BERLIN, April 2.—Reports by mail and wire are arriving from the Cameroons, Western Africa, which describe conditions there as precarious. Disaffection prevails among nearly all the tribes. The main cause is said to be the haughty and brutal treatment which the blacks receive. The German Colonial Department has called meetings of all interested in the Cameroons with a view of avoiding a further spread of disaffection and of obtaining sufficient help for the plantation.

CAPE TOWN, April 1.—Army orders were issued to-day declaring the abolition of the title "Free State Railway" and superseding this by the title "International Military Railway."

DUBLIN, April 4.—A. M.—In spite of the rain that was falling and the huge puddles of water under foot, the arrival of Queen Victoria in the royal yacht Victoria and Albert, of Kingstown, was the occasion for much enthusiasm, although it did not take an organized form, owing to the fact that her majesty came several hours ahead of schedule time. It had been officially announced that the Queen would reach Kingstown at 5:30 P. M. Tuesday, instead of 2 P. M., but at the latter hour the Victoria and Albert loomed up through the haze and rain and was greeted with the thunder of twenty-one guns from each ship of the British Channel Squadron.

CAPE TOWN, April 3.—General Cronje, Colonel Schiel and 1000 Boer prisoners sailed for St. Helena tonight.

Two small parties of Boers escaped from the Green Point tract. One party was traced to a railway train, which was stopped and searched near Cape Town. The Boers jumped through one of the windows of the train and got away.

## Shot at Prince of Wales.

BRUSSELS, April 4.—As the train was leaving the Northern station for the southern railroad station an individual fired a revolver at the Prince of Wales, but missed His Royal Highness. The attempt upon the life of the Prince of Wales occurred at 3:35 p. m. The would-be assassin jumped upon the footboard of the Prince's saloon car as the train was starting and fired into the car aiming at the Prince of Wales. The man was immediately arrested.

## Dewey Will Run.

WASHINGTON, Apr. 4.—The Associated Press has confirmed the World's statement that Dewey is a candidate for the Presidency.

WASHINGTON, Apr. 4.—It is not known what ticket Dewey wants to run on. He is a nominal Republican and his wife is an active Democrat, as becomes the sister of John R. McLean, of Ohio. She is ambitious to rule the White House, and probably imagines the Admiral as a candidate of patriotic Americans without respect of party.

## NOTICE

### The Merciful Man

Respects the Life of His Beast. . .

The undersigned begs leave to inform his friends and the public that he is in the business of horse dentistry, rasping or shaping horses' teeth which have become abnormal in shape. I have just received a fine class of instruments from the East for this work and guaranteed satisfaction in all work. Horsemen understand and practice this treatment. I do business on the "no cure, no pay" principle. Will examine free of charge and leave owner to examine and see if the work is needed.

A noted horseman says: "The first thing I do with a colt whose speed I wish to develop is to have a veterinary dentist examine his teeth, for if his teeth are not all right he will not come up and take a good, strong hold of the bit." This is equally true of saddle, driving and work horses, and mules.

The only difference between my work and that of a veterinary dentist is that where he charges \$5.00 I charge \$2.50, with a slight reduction for a number of animals.

C. B. MILES.

Wailuku, March 24, 1900.
